

1	Course Name:	Project II																																																																																																																																																																																																								
	Course Code:	BMCS3414																																																																																																																																																																																																								
	Course Classification:	Major (core)																																																																																																																																																																																																								
2	Synopsis:	This course requires students to apply their programming/technical skills to develop system prototypes/proof of concept that closely meet the identified system requirements and the proposed system designs. The students may apply their knowledge of various fields, such as database, web and mobile app development, data science, security and networking technology, and use appropriate system development tools. The developed application must undergo software testing to ensure the system's accuracy and reliability. For research-based projects, possible proof of concept testing is to be conducted to confirm the feasibility of proposed solutions. The students shall also be required to produce complete project documentation.																																																																																																																																																																																																								
3	Name(s) of Academic Staff:	1	Refer to timetable																																																																																																																																																																																																							
		2																																																																																																																																																																																																								
		3																																																																																																																																																																																																								
4	Semester and Year offered:	Year Offered			Semester							Remarks: Refer to Programme Structure																																																																																																																																																																																														
5	Credit Value:	4																																																																																																																																																																																																								
6	Pre-requisite/ co-requisite (if any):	BMCS3404 Project I																																																																																																																																																																																																								
7	Course Learning Outcomes (CLO)	 <table border="1"> <tr> <td>CLO1</td> <td>Produce a working system, prototype, or proof of concept by integrating problem-solving approaches and relevant technologies to meet the proposed system requirements and design. (P4, PLO3, ESD5)</td> </tr> <tr> <td>CLO2</td> <td>Organise the discussion on project implementation in a written report. (A4, PLO5)</td> </tr> <tr> <td>CLO3</td> <td>Present the outcome/findings of the project (A3, PLO5)</td> </tr> <tr> <td>CLO4</td> <td>Demonstrate their personal development in terms of responsibilities (A4, PLO8)</td> </tr> <tr><td></td><td></td></tr> <tr><td></td><td></td></tr> <tr><td></td><td></td></tr> <tr><td></td><td></td></tr> </table>											CLO1	Produce a working system, prototype, or proof of concept by integrating problem-solving approaches and relevant technologies to meet the proposed system requirements and design. (P4, PLO3, ESD5)	CLO2	Organise the discussion on project implementation in a written report. (A4, PLO5)	CLO3	Present the outcome/findings of the project (A3, PLO5)	CLO4	Demonstrate their personal development in terms of responsibilities (A4, PLO8)																																																																																																																																																																																						
CLO1	Produce a working system, prototype, or proof of concept by integrating problem-solving approaches and relevant technologies to meet the proposed system requirements and design. (P4, PLO3, ESD5)																																																																																																																																																																																																									
CLO2	Organise the discussion on project implementation in a written report. (A4, PLO5)																																																																																																																																																																																																									
CLO3	Present the outcome/findings of the project (A3, PLO5)																																																																																																																																																																																																									
CLO4	Demonstrate their personal development in terms of responsibilities (A4, PLO8)																																																																																																																																																																																																									
8	Mapping of the Course Learning Outcomes to the Programme Learning Outcomes, Teaching Methods and Assessment Methods																																																																																																																																																																																																									
	<table border="1"> <thead> <tr> <th rowspan="2">Course Learning Outcomes</th> <th colspan="11">Programme Learning Outcomes (PLO)</th> <th rowspan="2">Teaching Methods</th> <th rowspan="2">Assessment Methods</th> </tr> <tr> <th>PLO 1</th> <th>PLO 2</th> <th>PLO 3</th> <th>PLO 4</th> <th>PLO 5</th> <th>PLO 6</th> <th>PLO 7</th> <th>PLO 8</th> <th>PLO 9</th> <th>PLO 10</th> <th>PLO 11</th> </tr> </thead> <tbody> <tr> <td>CLO1</td> <td></td> <td></td> <td>✓</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td>Supervision, Discussion</td> <td>System/Prototype/Proof of Concept</td> </tr> <tr> <td>CLO2</td> <td></td> <td></td> <td></td> <td></td> <td>✓</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td>Supervision, Discussion</td> <td>Final Year Project Documentation</td> </tr> <tr> <td>CLO3</td> <td></td> <td></td> <td></td> <td></td> <td>✓</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td>Supervision, Discussion</td> <td>Presentation/Pitching</td> </tr> <tr> <td>CLO4</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td>✓</td> <td></td> <td></td> <td></td> <td></td> <td>Supervision, Discussion</td> <td>Progress Review</td> </tr> <tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr> <td>Mapping with MQF Cluster of Learning Outcomes</td> <td></td> <td></td> <td>C3A</td> <td></td> <td>C3C</td> <td></td> <td></td> <td>C3F</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table> Indicate the primary causal link between the CLO and PLO by ticking '✓' in the appropriate box. SLT for Assessment:		9
GRAND TOTAL SLT:		160
A	% SLT for F2F Physical Component: $\frac{[Total\ F2F\ Physical]}{[Total\ F2F\ Physical + Total\ F2F\ Online + Total\ Independent\ Learning]} \times 100]$	8.13
B	% SLT for Online & Independent Learning Component: $\frac{[(Total\ F2F\ Online + Total\ Independent\ Learning)]}{[(Total\ F2F\ Physical + Total\ F2F\ Online + Total\ Independent\ Learning)]} \times 100]$	91.88
C	% SLT for All Practical Component: $\frac{[%\ F2F\ Physical\ Practical + \%\ F2F\ Online\ Practical]}{[%\ F2F\ Physical\ Practical + \%\ F2F\ Online\ Practical]} \times 100]$	0.00
C1	% SLT for F2F Physical Practical Component: $\frac{[Total\ F2F\ Physical\ Practical]}{[Total\ F2F\ Physical + Total\ F2F\ Online + Total\ Independent\ Learning]} \times 100]$	0.00
C2	% SLT for F2F Online Practical Component: $\frac{[Total\ F2F\ Online\ Practical]}{[Total\ F2F\ Physical + Total\ F2F\ Online + Total\ Independent\ Learning]} \times 100]$	0.00

Please tick (✓) if this course is **Industrial Training/ Clinical Placement/ Practicum** using 50% of Effective Learning Time (ELT)

☐

Note:

* Indicate the CLO based on the CLO's numbering in Item 8

** For ODL programme: Courses with mandatory practical requirements imposed by the programme standards or any related standards can be exempted from complying to the minimum 80% ODL delivery rule in the SLT.

11	Identify special requirement or resources to deliver the course (e.g., software, nursery, computer lab, simulation room etc)	Nil
