Good 7-8	Excellent 9-10	Marks Awarded (10 max)	Weightage
use of visual aids ntation tools. arize content with int or diagram.	Excellent use of visual aids /presentation tools. Summarize content with keypoint and diagram.		2.5
ry and presentation is organized and ence. Minor natical errors and unces almost terms tly and precisely.	Delivery and presentation is very clear, organized and confidence. No grammatical errors, pronounces all terms correctly and precisely		2.5
good responses, if most of questions, good engagement in ue.	Good responses with clear explanation, answer all questions, show excellent engagement in dialogue.		2.5
collaboration, show t mostly during ision.	Excellent collaboration, show rapport and respect all the time during discussion.		2.5

202601 BMSE3153 Software Project Management - Assignment Rubric					Total Mark	0		
Team Members:								
Project Title:					Programme_Group:		(Eg:RSW3_G2)	
CLO3: Behave according to the code of ethics and professional conduct for project management. (A3, PLO11)								
Assessment Criteria	Unsatisfactory 0	Poor 1-3	Average 4-6	Good 7-8	Excellent 9-10	Marks Awarded (10 max)	Weightage	Weighted Marks
1. Project Background, Costs Estimate & Objective - Complete and concise. - Easy to understand. - Able to provide a good coverage	Irrelevant / No answer given	Provided answers poorly met the details of the criteria.	Provided limited answer or answer that basically met the details of the criteria	Provided good answer that mostly met the details of the criteria but it can be improved further.	Provided in depth answer that clearly met the details of the criteria.		1	0
2. Project Team Structure, Stakeholders Register & Communication Plan - Complete and concise. - Easy to understand. - All are logical	Irrelevant / No answer given	Provided answers poorly met the details of the criteria.	Provided limited answer or answer that basically met the details of the criteria	Provided good answer that mostly met the details of the criteria but it can be improved further.	Provided in depth answer that clearly met the details of the criteria.		1	0
3. Project Scope, Exclusions & Software Process Model - Have sufficient modules and functions and are relevant to the project - Exclusions are logical - Process model is appropriate and transparent to stakeholders	Irrelevant / No answer given	Provided answers poorly met the details of the criteria.	Provided limited answer or answer that basically met the details of the criteria	Provided good answer that mostly met the details of the criteria but it can be improved further.	Provided in depth answer that clearly met the details of the criteria.		1	0
4. Project Schedule & Assumptions - Tasks/subtasks, concurrent activities (if any), predecessor information are correct and logical - Milestones are clearly define/visible. - Assumptions given are logical	Irrelevant / No answer given	Provided project schedule poorly met the details of the criteria.	Provided project schedule that basically met the details of the criteria	Provided good project schedule that mostly met the details of the criteria but it can be improved further.	Provided detailed project schedule in professional way and clearly met the details of the criteria.		1	0
5. Quality Plan - Highly relevant to the project. - Application of software quality assessment process is relevant. - Provide sound justification.	Irrelevant / No answer given	Limited appropriateness and relevance of content.	Provided limited answers that basically met the details of the criteria	Good appropriateness and relevance of content, but it can be improved further.	Detailed, appropriateness and relevance of content with relevant justification.		1	0
6.Risk Table - Highly relevant to the project. - Risk Mitigation, Monitoring and Management plans are logical - Provide sound justification.	Irrelevant / No answer given	Limited appropriateness and relevance of content.	Provided limited answers hat basically met the details of the criteria	Good appropriateness and relevance of content, but it can be improved further.	Detailed, highly relevant and logical		1	0
7. Ethics and professional conduct for project management a) Engagement strategies with the most influential or powerful stakeholder and potential users of the system.	Irrelevant / No answer given	Engagement strategies are not quite appropriate.	Engagement strategies are quite appropriate.	Engagement strategies are appropriate.	Engagement strategies are very logical and appropriate.		1	0
b) Importance of disclosing the disadvantages of the project software process model	Irrelevant / No answer given	Answers are not quite accurate and logical	Answers are quite accurate and logical	Answers are accurate and logical	Answers are very accurate and logical		1	0
c) Corrective actions to bring the project's schedule back on track.	Irrelevant / No answer given	Corrective actions are not quite sound and logical	Corrective actions are quite sound and logical	Corrective actions are sound and logical	Corrective actions are very sound and logical		1	0
d) Report - Well-formatted with appropriate font, titles/subtitles, labels to figures/tables, etc. - Well-structured with appropriate table of contents, pagination, sections and subsections. - Appropriate citation and references using APA Style.	No format, unstructured, inappropriate citation.	Some format were missing, basically met the minimum of the criteria	Minimal format were available, basically met the limited of the criteria	Most format were available, but it can be improved further.	Provided all format for readability and met the details of the criteria		1	0
